Lily is a 5 year old, Skewbald, thoroughbred(part-bred) mare by 3* stallion Tullibars Romeo out of 1* mare Thirkleby Alissica. Officially measured at 146.4 cm serious potential for pony trails, pony 2* level but also has the scope for pure show jumping. Currently loose jumping over 1.25cm (video available), Lily has been professionally broken in early last year and has been brought on slowly and correctly. She has been jumped by children as well as adults. She has a lovely temperament 'not mareish' and is very good to handle, travel (alone or in company) catch, good with farrier etc. Lily is currently out competing scoring over 66% in her first dressage test, jumping clear round 90+ courses SJ and has started now doing one day eventing. Sensible to hack out alone or in company. Ready now to go BE/BS with an ambitious young rider who is going to fulfil her potential. Teeth and vaccinations all up to date, no vices, or lameness history. Please contact - Click here to reveal phone number - calls only.
