Charles was born in January 2016, he has just turned 3 and he was just brought to the paddocks after growing for the first 3 years in freedom with other foals his age. This is the studs philosophy of breeding, for the correct development of their structure, muscles, tendons and mind. He has just started his training and he's doing well, he's a hard-worker with a very noble character. He's now approx 163 cm at the withers, but he's expected to grow up to 170cm.

Price Range 12-15k euros
