Adorable palomino gelding

Lovely sort good amount of bone and feather, lovely paces and very nicely put together he will excel in the show ring but could do most jobs.

Elvis is super friendly and really wants to learn and please

He happily takes tack, leads around village on his own and in company. Happy in all traffic seen to date and goes through puddles etc . Good to catch, leads well and has good experiences with farrier. He has been on and off trailer for practice and is very well behaved. Currently living out but happily comes into stables when needed. Has been turned out with mare and geldings and is a real sweetie. Sadly my situation has changed so he is looking for a few forever home where he can go make new friends

I imported him from Ireland his breeding is known (sire castlerea dun dan, grand sire shambo) however this is not recorded on passport. Breeder says he will make around the 15hh mark he stands at around 13.1 now.

I will be very sad to see him go so serious enquiries and no offers please

He's had a very good start and i expect he will be easy to back when the time comes , ideally looking for someone who has experience with youngsters so his education is continued
