Features & Accessories

This Stunning Tatton classic is available to purchase immediately!!!

Built on a unregistered 4.5t chassis it boasts a massive 1750kg payload and painted in a very beautiful Orkney grey and pearl white. The cab has black cloth seats, air con, Bluetooth connection and daytime running lights.

The horse area is a massive 9ft so accommodates the biggest of horses and is in the Stallion layout so no bars or tack lockers in the horse area.

As with all our Tatton product high tech is standard. This box includes our standard equipment such as fully re-inforced bulk head, fully re-inforced aluminium flooring including the living area. Stainless steel, gated centre partition and separate wall dividing horse area from living.

Full interior camera system included to keep a watchful eye on your prize possession.

This particular box is from our Professional range which means that the skin of the box is made entirely from aluminium, unlike the vast majority which will be made from GRP.

This process of manufacture gives an infinitely higher build quality. All the tack lockers are coach built aluminium giving a lot longer build life and superior paint quality.

This box has a large tack locker to accommodate 2 large saddles and also enjoying the safety of 2 stainless steel ramp supports.
