Description

Ideal grassroots horse with the ability to go further!

With Proven Event Record

This super horse has been there and got the t-shirt but also has all the potential and ability to go on and do much more further up the levels! His trainable brain and willing temperament have allowed him to be successful across all three disciplines whilst eventing at be90 and be100 level.

Javi is an approx 16.3hh 7yr old bay ISH gelding by the sire Indoctro and the mare Begsy's Bullet. He is well conformed with clean legs and good feet.

This super horse evented extremely successfully last season running at both be90 and be100 level with multiple double clears at both levels. Super record, never had a xc fault, he is a bold brave yet careful jumper with lots of scope to move up the levels. Regularly placed in the top 10 with 22 foundation points to date he is huge contender for the badminton grassroots championships, his super jumping teamed with his great flatwork results make him ideal for someone who would like aim at grassroots level.

Three super paces with regular dressage scores in the 20's low 30's, works in a correct consistent outline in all three gaits and works well from the leg without being sharp.

Hacks alone and in company, good in open spaces, great stable manners, will live in or out, good to box,shoe,clip and catch.

Would suit a competitive amateur who wanted to progress, he is a competition horse who likes having a job so wouldn't be for a novice rider.
