Description

Archie is a 16.3hh ISH gelding. He has Cassini I bloodlines and is talented to match. He has an amazing jump, he regularly schools around 80/90 cm with me at home with plenty of scope to go much higher. I am not a very confident rider but Archie is always looking after me when jumping. In the school he is more of a leg on type but steps up a gear when jumping. Has never been bothered by fillers, tarpaulins etc. In his previous home he has done a lot of XC schooling which leads me to think he would make a cracking eventer as he has tonnes of stamina.

I have hacked him out in company and he can be a bit excited, jogging etc but I don't really tend to hack out as I enjoy schooling.

In the school he can be a bit lazy whilst being warmed up but once warmed up he is happy to work in an outline, he just needs a rider that will push him forwards otherwise he can be a bit behind the leg.

He has no vices at all and is brilliant for the farrier, vet, physio etc.

I believe he will make someone an amazing competition horse, he's only for sale as he should be out competing and doing a lot more than I do with him.

He would be suitable for a confident amateur rider and not a novice as he can get excited, but never nasty and has never reared, bolted, napped.

been checked by the vet and passed his flexion tests etc. 100% sound, needs a bit of work to build topline.

Available to view near Crewe, Cheshire.
